### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Ross on 18 October 2004.

The application has been amended as follows:

***In claim 23***, line 6, please delete: " $a \leq 0$ "

and insert in its place " $a \geq 0$ "—

The following is an examiner's statement of reasons for allowance: The examiner's amendment is made in order to correct a typographical error. Applicants' amendments overcome the prior art of record, as discussed in applicants' response of 21 July 2004. The prior art of record fails to disclose batteries having electrode active materials with NASICON structures in which the anion contains  $XO_4^{-3}$  moieties in which 'X' is silicon or a mixture of silicon and phosphorous, and a portion of the oxygen is substituted by halogen.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
